

L.J. INSTITUTE OF APPLIED SCIENCES

DEPARTMENT: CHEMISTRY

CHEMISTRY CLUB

A great kick start to the Chemistry Club began by a very informative talk by **Dr. Pavitra Singh Head of the Hitech Health Care Laboratory and Research Centre**. He enlightened the students of Chemistry Department about the role of testing in ***drugs, cosmetics, water, waste water, heavy metals and food analysis***. The students were highly encouraged about the matters involving testing procedures as well its role in various areas of chemistry and also he explained nowadays how chemistry subject is most important subject in B.Sc. and M.Sc. course. ***Looking at the enthusiasm and interest of chemistry students he also proposed an internship programme to Chemistry Department for the benefit of students.***
