

L.J.INSTITUTE OF COMPUTER APPLICATIONS

A Report on Expert Talk “Ecosystem to link Youth, Innovation & StartUps” (30th Sept 2016)

Government of Gujarat has organized National Summit on Innovation and Technology (NSIT) as a part of preparatory of Vibrant Gujarat Summit 2017 at Mahatma Mandir, Gandhinagar. Various industrialists, businessmen, experts, educationalists and youth engage with I.T., electronics, bio-technology and nanotechnology will interact for start-up business development during this two day summit.

Dr Jignesh Doshi, Prof. Dhaval Patel and Mr Shailesh Joshi alongwith a group of 50+ students from LJMCA attended expert session of Dr Manish Shah on 30th Sept 2016.

Key Speaker: Dr Manish Shah, VP, LJ Group of Institutes

profile

Session : Incubation and Innovation

Dr. Manish Shah, Vp,LJK, talks about the efforts to build ecosystem to link Youth, Innovation & [#StartUps](#). Dr. Manish Shah spoke about incubation centre established at LJCAMPUS. *Incubation centre* is initiation of providing support to the students in their start-up business.

He discussed the device invented and designed by the students of L.J. Institute of engineering named Handi Care, which won GANDHIAN Awards from Rastrapati. “*Handi Care*” is project which depicted the face of humanity inspiring each and every person gathered in the auditorium and the loud applause made the inventors proud of being a part of a great cause.

Further, he discussed about Sewage Cleaning device invented by students. *Sewage Cleaning device* was invented for the cleaning of the underground polluted water. This device cleans the inner walls of the underwater pipes resulting into clean transmsion of the water.

The feedback of the students about the visit was very positive. They enjoyed as well as learnt a lot from the visit. Students also would like to have such educational visits more than once a year.
