Observations during the Workshop:

- Students learned lots of thing in this workshop which will be very helpful to them in upcoming final year projects.
- Some of the concepts are covered which is not a part of their current GTU syllabus but will be useful to students to design product as per need of current market.

Subject/s or topic related to Workshop: Dot Net

Outcomes/Understanding from the Workshop:

After Attending Workshop students will be able to

- Design and handle Dynamic Page Controlling
- Create Web pages with AJAX enabling basic controls and additive controls.
- Handling Page partition which will be helpful to them to design systems like

facebook, Stock market dynamic websites, etc...

Feedback of Students:

We received all over good feedback from the students some of the points are:

- Such type of workshop is very helpful to us.
- Kindly increase the frequency of such type of workshop which will give us more practical knowledge.
- Workshop is very helpful to us to develop products in a professional approach.
- Workshop is very informative.
- Kindly arrange workshops on Advance JAVA, Graphics, Wordpress, etc...

We are thankful to our HOD Prof. Shweta Yagnik, HOD CE and Higher Management for giving us permission for conducting such workshop. We are also thankful to Mr. Nikunj Dabeji for their continuous support.

The overall workshop was really resourceful and has helped the students to understand the basic and advance concepts of AJAX in Dotnet.
