

Best Practices at LJ Polytechnic

Orientation Programme

At the time of admission, we conduct orientation of students along with their parents to brief the whole system as to how three years of diploma will be meaningful spent for the students and what will be their future. It is a comprehensive interactive programme. Whatever the queries by parents and students regarding admission, courses, academic activities, training, examination, etc. are solved by the college management and teaching staff.

Industrial Visits

College organizes various industrial visits and study tours for students to understand the actual applications of their fields. Also to get the knowledge of the operation process, safety, quality, production techniques, designing, etc.

Lectures & Laboratory

Beside the regular lectures & labs, all the departments conduct additional sessions for weak, late admitted students as well as students having doubts. College encourage active learning and respects diverse talents and ways of training.

Expert Lectures

All the departments invite mentors/experts to give industrial exposure and share their experience to the students. It develops more learning interest among the students.

Continuous Evaluation

Continuous evaluation includes some form of formative assessment. It covers the marks of class tests, mid-exams, lab work, assignments, case study, presentation, group discussion, quizzes, smart classes, attendance, industrial visits, study tours, expert lectures, seminars, workshops. The goal is to improve performance and achieve successful outcomes

Seminars/Workshops

College organizes 2 to 3 days seminars/workshops for students related to their fields. They get knowledge, applications and skills about their respective area of interest.

Transparent Mechanism

Our teaching as well as evaluation process is totally transparent. We take signature of students in each lecture/lab, examination, industrial visits, seminar, workshop, expert lecture, parents meeting and other college activities, so that they can't claim the college for their absence. Even if anyone has doubt in the internal marks, we show the answer books to them along with parents.

Mentoring & Counselling

A unique counseling process is followed wherein each faculty is allocated 20 students as a mentor with an objective to constantly follow student's progress and accordingly suggest changes in case of any deviation.

Parents Teachers Meeting

Parents teachers meetings are conducted to take the regular feedback about the progress of their ward and overall development of the college. Due to coordination among parents and departments, the students become regular and follow instructions properly.

Best Practices at LJ Polytechnic

Life Management Skill

College conducts various sessions of communication skills, team building, role play, attitude, behavior, grooming, time & data management, etiquette, social responsibility, motivation, decision making, creative thinking, problem solving, personality development, self-discipline, self-learning and outbound activities.

Appreciations of Staff and Students

LJP believes when staff and students are motivated to work at higher levels of their skills and abilities, the college as a whole runs more efficiently and is more effective at achieving its objectives and goals. For this the college has started reward systems for the performance and achievement of staff and students.

Smart Sessions

Each department conducts smart sessions for students to prepare them for examinations as well as over all development of their respective subjects and fields. It helps students to understand their subjects and its industrial applications properly.

Different Competitions

All the departments conduct competition for interested students in their respective fields, which will add value to students in academics. Some unconventional way of teaching is adopted to develop interest among students.

ERP & SMS Alert

College follows online ERP system for academic records (attendance, marks, fees, students' profile, parents meeting, etc.). All departments send SMS of absent students to parents and other activities.

Skill Development/ Value Added Training

Other than their regular studies students learn various additional skills after class timings or during vacation. It helps them to excel in their respective fields.

Extra-curricular Activities

Without disturbing academic activities, LJP organizes various events like sports, cultural, technical, engineer's day and teachers' day. We also celebrate diwali, uttaryan, garba. All these develop strong bonding among students, staff as well as parents.

D2D Admission

We always make sure that after completing diploma, all students get admissions in degree or placed in industry. Since 2011, more than 80% of students have got admission in D2D and others have placed, have joined their father's business or shifted abroad.

Learning by Doing

It gives ample practice to internalize the skills. It gives hands-on experience, which helps the learners to understand the practical execution aspects and the concepts associated with it.

Faculty Development

Faculties are the back bone of any college and its training system, so to upgrade and enhance their knowledge & skill, LJP organizes various faculty development programmes in /out of campus.
